

SPEED GATE TS-SG-250

General Information:

TECHNOSPACIO High Speed gate TS-SG-250 is a high end elegant speed gate series with patented appearance. it is designed to provide civilized and orderly access control management for pedestrians in high end sites, protecting physical security. for instance security desks, government facilities, schools, banks and hospitals, universities, sports and entertainment and student campus, it can prevent unauthorized persons access via multiple recognition modes, like RFID reader/QR code scanner/Facial terminal/Remote control/Token etc.

Main Features: 1.

Slim styling and Elegant appearance ; 2. Anti-collision Brushless servo motor drive(servo motor is optional) ; 3. ARM control +Modular structure, easier maintenance; 4. Main Circle Before Failure: 10 million time; 5.Support mains tripping access control modes (RFID / QR / Facial / Thermal detecting / EU Green Pass etc) 6.high speed gate turnsstile passage width can be customized . 7.Default 8 pairs sensors to ensure passage safety.

Access Control System (Optional)

1.1. Product specifications

Brand	Technospacio
Motor type	DC Brushless motor
Cabinet Material	SUS304 Staunkess Steel
Door Wing Material	10mm Plexiglass, Tempered Glass
Rated Power	50W
Flow rate	20-60 persons/minute (pending on swing panel size)
Passage direction	Single directional/Bi-directional
Power input	110V- 220V,50HZ
Emergency signal	Yes
Swing panel	Acrylic/tempered (optional)
Working voltage	110volt
Chassis Size	600*200*900
Working temperature	20°C~70°C
Compatibility	Compatible to all recognition methods available
Communication interface	RS232/485
Opening Speed	Fastest People/Minute

Net Weight(kg)	45
Dimension(mm)	600*160*980MM

Product Details

Reliability

- High grade stainless steel 304 of foot thickness of 1.5mm with groove finish.
- The cabinet is waterproof, rust-proof.
- Self-developed mainboard, modular design, ARM control technology.
- Easier and less maintenance
- 2 year factory warranty.

SWING & SIDE PANEL DESIGN

Artistic design to make gates look different; Swing barrier length can be customized Support Logo printing.

- Guest light + tri-color walkway indicating light to ensure a joyful and pleased accessing experience.
- Special designed case shape, user-friendly for passenger to swipe card or finger.

Easy Integration

- Flexible reader installation plate. Customers can easily integrate with third party reader
- Standard electrical interface for third party device.
- By using compact mechanism, the turnstile has more space inside for integration

TECHNOSPACIO provides integration service in factory, with board and peripherals installed, ensuring compliance of the system. When the turnstile is delivered, just plug it in and do the setting. Save the cost of installation.
