Features

- **High-Strength Spikes:** Heavy-duty steel spikes are designed to stop unauthorized vehicles and provide effective vehicle access control.
- **High Visibility:** Bright yellow construction with black safety markings improves visibility for drivers and security personnel.
- **Vehicle Access Control:** Controls and restricts unauthorized vehicle movement at entry and exit points.
- **Heavy-Duty Construction:** Robust steel structure is designed for demanding commercial, industrial, and security applications.
- **Automatic Operation:** Can be integrated with access-control systems for controlled raising and lowering of the tyre-killer mechanism.
- **Directional Control:** Supports controlled vehicle movement according to the configured entry and exit direction.
- **Anti-Unauthorized Entry:** Prevents vehicles from passing through restricted access points without authorization.
- **Safety Protection:** Designed with clear visual markings and controlled movement to support safer vehicle access management.
- **Low Maintenance:** Rugged construction and a simple mechanical design help reduce routine maintenance requirements.

Technical Specifications

Brand	Technospacio	Minimum Passing Pressure	container trucks under 80 tons can pass
Model Number	TS-TK-03	Power Supply	220, 50HZ single phase AC supply
Dimension	4500 * 500 * 85mm (customizable)	System Power	180W
Thickness	16mm	Power Unit	motor drive
Blade Hight	120mm	Rising Time	≤1-2S
Voltage	380V	Descending Time	≤1-2S
Power	180W	Working Temperature	-10℃~60℃
Material	A3 steel, sprayed with antirust primer	Spike Thickness	10mm
Control Mode	wireless remote control and hand Crank	Panel Thickness	16mm
Protection Grade	IP67	Remote Control Range	50-100M
